INTRODUCTION

The EDID Emulator Adapter pre-set EDID display information for PC or GPU source.

While the source couldn't get the EDID display information from monitor or HDTV, EDID Emulator could provide the commonly used resolutions and refresh rates for operation.

The EDID Emulator Adapter may also help to eliminate troublesome EDID issues like:

- Your PC couldn't get the EDID from video extenders.
- Your PC couldn't get the EDID from your display when you are using video splitters.
- Your PC couldn't get the EDID from your display when you are using video switchers
- Your PC couldn't get the EDID from your display when you are using video matrix.

INTENDED USE

This product is intended for indoor use only. Do not use it outdoors. Contact with moisture, e.g. in bathrooms, must be avoided under all circumstances.

For safety and approval purposes (CE), you must not rebuild and/or modify this product. If you use the product for purposes other than those described above, the product may be damaged. In addition, improper use can cause hazards such as short circuiting, fire, electric shock etc.

Read the instructions carefully and keep them. Make this product available to third parties only together with its operating instructions.

SAFETY INSTRUCTION

Read the operating instructions carefully and especially observe the safety information. If you do not follow the safety instructions and information on proper handling in this manual, we assume no liability for any resulting personal injury or damage to property. Such cases will invalidate the warranty/guarantee.

The device is not a toy. Keep it out of the reach of children and pets.

Do not leave packaging material lying around carelessly. These may become dangerous playing material for children.
