Component (PDS-2303C only)

Component (PDS-2303S only)

Package M (x3)

PDS-9501 (The following accessories are optional)

1. Assembling the Base

Attach the left and right base to the middle base using the appropriate screws. Tighten all screws with an Allen key.

2. For the model PDS-9501 installation (Assembly based on the accessories selected by user.)

Attach the power socket to the back of column using the appropriate screws. Tighten all screws with a phillips screwdriver.

3. Attaching the Column to the Base

Attach the column to the assembled base using the connecting piece, secure them with the appropriate screws.
NOTE: Lock the brakes on the casters to avoid any sudden movements during installation.

4. Installing the Covers

5. Installing the Universal Plates

Insert the universal plates to the column along the column rails respectively.
NOTE: With the arrow pointing upward.

6. Installing the Top Cover

7. Installing the Adapter Brackets

7. Installing the Adapter Brackets

7-1 For Flat Back Screens

7-2 For Recessed Back Screens or to Access A/V Inputs

Note: Choose the appropriate screws, washers and spacers (if necessary) according to the type of screens.

- Position the adapter brackets as close as possible to the center of the displays.
- Screw the adapter brackets onto the displays.

⚠ Tighten all screws but do not over tighten.

8. Hanging the Displays onto the Universal Plates

Note: The displays are installed to the universal plates from the bottom up.

- Lift the display carefully and pull downward two straps at the same time, then hook the adapter brackets to the universal plate. Fasten the adapter brackets to the universal plate by releasing the straps.
- The other displays are hung onto the universal plates in the same way

9. Micro-Adjustment

Use the padlocks to prevent the displays from being stolen (The padlocks are not included).

Note: Adjust the angle of displays by the numerical order given.

If the displays uptilted, rotate the adjustment screws as shown in figure.

If the displays tilted down, rotate the adjustment screws as shown in figure.

Rotate the adjustment screws as shown in figure to make a one millimeter gap left between the displays.

10. Cable Management

Insert the cable clamps horizontally into the plate slots, then turn the cable clamps to the vertical to secure them.

Run the cables through the cable clamps and the rubber strip.

11. Adjustment

12. Multi-screen Combination Solution

Note: The displays are installed by the numerical order given.

Note: The angle of displays are adjusted by the numerical order given.
