RICHMOND PARK FAMILY HOME
London, UK.

26 sources x 24 displays
1 x 3 video wall
Installer: Inspired Dwellings
Control: Control4

More than 10 years of experience as the pioneers of
HDMI over IP with thousands of completed projects

4K video matrixing over IP

The 3G Ultra HD over IP transmitters and receivers can send 4K (2160p) and UHD video with HDCP 2.2, as well as 1080p and lower resolution content, from a mixture of HDMI 2.0 and HDMI 1.x source devices to any number and combination of HDMI 2.0 and HDMI 1.x displays over a standard Gigabit network.

Unlike other IP-based solutions, there's no need to use a costly 10Gb Managed Switch or fibre optic cabling. All that is needed to create any size of 4K-capable HDMI matrix is a single 3G Ultra HD over IP transmitter per HDMI 2.0 or HDMI 1.x source, a Layer 3 Gigabit Managed Switch, a 3G receiver per HDMI 2.0 or 1.x screen and a compatible control system atop a Cat 5e / 6 cabling infrastructure.

The Just Add Power 3G chipset is flexible, affordable, and feature rich, all without sacrificing an ounce of performance or quality.

Flawless video with seamless HDR Management and Audio Management in any format up to Dolby Atmos.

- ✓ Flawless Performance
- ✓ Buy it Once
- ✓ Use for Decades
- ✓ Forward Compatibility
- ✓ Backward Compatibility
- ✓ Free Updates
- ✓ Same Switch
- ✓ Same Cabling
- ✓ Same Control Drivers

Just Add Power is the only HDMI over IP
system built on the sustainable
Evolution not Revolution Design platform.
That means you don't toss out Products after
a year or two. Just Add Power products are
designed for Decades of use!

ZOOPLA (ZPG Group PLC)

London, UK

21 sources x 50 Displays

Installer: Nucleus AV

Control: Savant

Simple, Sustainable, Modular, Robust, and Reliable

How to build a 4K over IP matrix...

*One Transmitter per source.

*A supported Gigabit Managed switch with the right number of ports. One port for each 3G device plus one additional port connected to your data network

*One Receiver per display. Receivers (3G Models) can downscale 4K HDMI 2.0 with HDCP 2.2-encrypted content to 1080p for viewing on a legacy HDMI display creating the most seamless and versatile HDMI matrix on the market, all while managing audio and HDR. You can even watch HDR 4K content on any 4K or 1080p screen at the same time without sacrificing quality. Each zone always gets the best picture possible.

Cabling: Use Cat 5e /Cat 6/7 for distances up to 330 ft or fiber optic cabling for distances up to 10 km.

Control System Integration: A range of fully supported professional drivers are available free of charge for all major control brands.

Enterprise Network Software: A software suite that is specifically designed to control, manage, and monitor an UltraHD over IP system.

BELTERRA CASINO RESORT

Switzerland County, Indiana
32 sources x 39 displays
Installer: Nor-Com
Control: On Controls

The Most Reliable And Robust Enterprise Grade 4K Over IP Solution, Period.

4K Up & Downscaling

Receivers can downscale a 4K signal with HDCP 2.2 to 1080p for viewing on legacy screens and upscale for 4K displays

HDCP 2.2 Support

3G seamless HDCP conversion allows content to be shown on any display, even if it isn't HDCP 2.2

Works with all 4K Sources

EDID Magic software = Zero EDID issues

Zero Detectable Latency

Incredibly low encode / decode latency over the network that is visually undetectable

Seamless Switching

Switching between any source is instant, even when resolution changes

VGA & HDMI Wall Plate Inputs

VGA and HDMI Wall Plate Transmitters available in multiple colors

Image Preview

Preview image of any source or display in any web browser or control system up to 10 fps

DHCP Server

DHCP Server allows shared gigabit LAN without bogging down your network

Campus View

Use any Gigabit switch or VLAN switching

Seamless HDR Management

Display HDR content on HDR displays while simultaneously displaying the same content on 1080p and 4K on non-HDR displays

Analog Audio Inputs and Outputs

Analog audio inputs can be mixed or muted with HDMI audio and analog Audio Outputs with adjustable volume and delay on each Transmitter and Receiver.

Custom Logo Overlay & Default Image

Overlay a custom logo on any display and load a custom default image

Dolby Atmos and Dolby Downmix

Dolby Downmix to analogue Audio and support for DTS:X and Dolby Digital

Video Tiling

4 custom windows per tiler. Add more for unlimited windows [view on any screen]

Video Wall

Build up to 256 displays in a single dynamic wall with Image Flip and Rotate for portrait or landscape installations NOW Mosaic Video Wall!

Free Automatic Drivers

Custom drivers auto build and configure to the network

Any Size Matrix

Hundreds of sources and thousands of displays in a single project

USB 2.0 Over IP

Keyboard, mouse, touch Interface over IP built in

Known Track Record

Tens of thousands of completed projects installed giving you the peace of mind you need

Visually Lossless Over Cat5e/6/7

Managed gigabit switches route traffic without slowing down your network over Cat x cabling

Plug-Play-Present

Plug-Play-Present is a simple logic application for any 2G or 3G Transmitter to set video sensing scenes. Simply connect a source, and the Transmitter will select one or more custom preset displays, power them on, and switch to the correct input. Once your presentation is complete it can power down displays or switch them to another input.

NO CONTROL SYSTEM NEEDED!

Integrated Control

RS-232, CEC, and IR over IP integrated in each device

Free Web Control App

App runs in any web browser to control switching

MORGAN MOTOR CARS

Birmingham, UK.
3 x 3 video wall

TRANSMITTERS

3G+AVP TX

VBS-HDIP-718AVP

4K

- Encodes 4K and lower resolutions
- Supports HDCP 2.2 and HDMI 2.0
- 4K 60 Compatible
- Ultra low latency
- Image Push, Pull & Pop
- Instant-Seamless switching
- PoE Powered
- Video Wall

- Dolby DSP - Dolby Digital 5.1 and stereo analog
- Two analog audio inputs mixable with HDMI audio
- Stereo audio output 3.5mm
- Adjustable volume and delay
- RS232, CEC, IR* control of sources
- HDR & HDR10 Management
- USB 2.0
- Plug-Play-Present built in

3G+AVP RACKMOUNT

VBS-HDIP-749A

4K

- 718AVP Feature set
- Encodes 4K and lower resolutions
- Supports HDCP 2.2 and HDMI 2.0
- 4K 60 Compatible
- Ultra low latency 4K

- 1U Rack mount
- 3 Transmitters built into one chassis
- Fan cooled
- Commercial power supply
- Reversible Rack ears

3G+HIFI TX

VBS-HDIP-717HIFI

4K

- Encodes 4K and lower resolutions
- Supports HDCP 2.2 and HDMI 2.0
- 4K 60 Compatible
- Ultra low latency
- Image Push, Pull & Pop
- Instant-Seamless switching
- PoE Powered

- Video Wall
- HDMI Loop Out
- All Lossless audio supported
- RS232 and IR* control of sources
- HDR & HDR10 Management
- Plug-Play-Present built in

3G POE TX

VBS-HDIP-707POE

4K

- Encodes 4K and lower resolutions
- Supports HDCP 2.2 and HDMI 2.0
- 4K 60 Compatible
- Ultra low latency
- Image Push, Pull & Pop
- Instant-Seamless switching
- PoE Powered

- Video Wall
- HDMI Loop Out
- All Lossless audio supported
- RS232 and IR* control of sources
- HDR & HDR10 Management
- Plug-Play-Present built in

TRANSMITTERS

3G+WP4 TX

VBS-HDIP-717WP4

4K

- Encodes 4K and lower resolutions
- Supports HDCP 2.2 and HDMI 2.0
- 4K 60 Compatible
- Ultra low latency
- Image Push, Pull & Pop
- Instant-Seamless switching
- PoE Powered
- Video Wall

- VGA & HDMI Auto Switching
- HDMI Loop Out
- Analog Audio Input
- USB 2.0
- 4 Gang Plate Black, White, or Custom Colors
- RS232 and IR* control of sources
- HDR & HDR10 Management
- Plug-Play-Present built in

3G+WP2 TX

VBS-HDIP-717WP2

4K

- Encodes 4K and lower resolutions
- Supports HDCP 2.2 and HDMI 2.0
- 4K 60 Compatible
- Ultra low latency
- Image Push, Pull & Pop
- Instant-Seamless switching
- PoE Powered
- Video Wall

- VGA & HDMI Auto Switching
- HDMI Loop Out
- Analog Audio Input
- USB 2.0
- 2 Gang Plate Black, White, or Custom Colour
- RS232 and IR* control of sources
- HDR & HDR10 Management
- Plug-Play-Present built in

3G+4+ VIDEO TILER

VBS-HDIP-759A

4K

- 4 inputs & Tiles
- Custom sizing & Placement
- Adjustable Transparency
- Unlimited custom presets

- Broadcast-grade Fading
- Smooth Transitions for live events
- Mix any resolution source
- Local HDMI out

- IP or IR controlled
- Stackable for unlimited tiles
- Custom tile placement
- View on any screen

3GPOE RACKMOUNT

VBS-HDIP-747POE

4K

- 4 Input Rackmounted Version of 4K 707POE
- POE or AC Powered
- 4K 60 Compatible

15 sources x 68 displays, 3x6 video wall and a 4x5 video wall
Installer: NorCom
Control: Crestron

TRANSMITTERS

2G Ω /3G VGA TX

VBS-HDIP-716VGA

1080p

- Compatible with both 2G and 3G gear
- VGA Input
- Analog Audio Input
- USB 2.0
- RS232, CEC, and IR* control of sources
- Plug-Play-Present built in
- Encodes 1080p and lower resolutions

- Supports HDMI 1.4
- 2G, 3G, and 2G Ω Support
- Ultra low latency
- Image Push, Pull & Pop
- Instant-Seamless switching
- PoE Powered
- Video Wall

2G Ω /3G+ TX (Max 1080p)

VBS-HDIP-715POE

1080p

- Compatible with both 2G and 3G gear
- Encodes a 1080p or lower resolutions
- Supports HDCP 1.4
- Ultra low latency
- Image Pull, Push, & Pop
- HDMI Loop Out

- Supports all digital audio formats
- PoE Powered
- RS232, CEC, and IR* control of sources
- Plug-Play-Present built in
- Analog Audio Output

2G Ω /3G TX (Max 1080p)

VBS-HDIP-705POE

1080p

- Compatible with both 2G and 3G gear
- Encodes a 1080p or lower resolutions
- Supports HDCP 1.4
- Ultra low latency
- Image Pull, Push, & Pop
- Supports all digital audio formats

- PoE Powered
- RS232, CEC, and IR* control of sources
- Plug-Play-Present built in
- Instant-Seamless switching

ACCESSORIES

VBS-HDIP-RS1U

VBS-HDIP-IRD

- 19" Rack mount shelf
- 2G, 3G, and 2G Ω compatible
- Holds up to 13 devices

- Serial to IR
- Compatible with all devices
- Adds IP to IR control

Morrison, Colorado, USA
6 sources x 4 displays
Control: Control4
Installer: ListenUp

RECEIVERS

3G+AVP RX

VBS-HDIP-518AVP

- Scales 4K to 1080p & up to 4K
- 4K HDCP 2.2 and HDMI 2.0
- Ultra low latency
- Image Push, Pull & Pop
- Instant-Seamless switching
- PoE Powered
- Video Wall

- All Lossless audio supported
- USB 2.0
- Analog Audio Out
- Adjustable volume & audio delay
- RS232, CEC, and IR* control of display
- HDR & HDR10 management
- Plug-Play-Present built in

3G POE RX

VBS-HDIP-508

- Scales 4K to 1080p & up to 4K
- 4K HDCP 2.2 and HDMI 2.0
- Ultra low latency
- Image Push, Pull & Pop
- Instant-Seamless switching
- PoE Powered

- Video Wall
- All Lossless audio supported
- RS232, CEC, and IR* control of display
- HDR & HDR10 management
- Plug-Play-Present built in

2GΩ/3G+ RX (Max 1080p)

VBS-HDIP-515POE

- Compatible with both 2G and 3G gear
- Encodes a 1080p or lower resolutions
- Supports HDCP 1.4
- Ultra low latency
- Image Pull, Push, & Pop
- PoE Powered

- Instant-Seamless switching
- Supports all digital audio formats
- RS232, CEC, and IR* control of display
- Plug-Play-Present built in
- Analog Audio Output

2GΩ/3G RX (Max 1080p)

VBS-HDIP-505POE

- Compatible with both 2G and 3G gear
- Encodes a 1080p or lower resolutions
- Supports HDCP 1.4
- Ultra low latency
- Instant-Seamless switching

- PoE Powered
- Supports all digital audio formats
- RS232 or IR* control of display
- Video Wall
