

ASSEMBLY INSTRUCTION

PANCONNECT NEO HDVS, 150 and 310

General description, basic technical data and other information and instructions find in the document „Technical specification“, which is enclosed to „User manual“.

1 | Assembling

- Adapted for horizontal installation into desks of thickness from 16 to 40 mm
- The corpus is mounted from the lower side of the table desk with mounting clamps with screws

Step 1: Cut an opening in the table:

| Product type | Cut-out dimensions (mm) |
|--------------|-------------------------|
| NEO | 270mm x 112mm |

Step 2: Carefully insert the interconnection box into the prepared opening and check if it fits.

Step 3: Take the mounting brackets under the table and insert them into openings on both sides of the unit (either longer or shorter side of the box).

Step 4: Secure them and screw the unit up slightly against the board with screws M6x40.

Step 5: Verify proper alignment of the interconnection box against the table desk, move them into the right position if need and finally tighten the screws.

2 | Connection

Interconnection boxes PanConnect have one cover fastened from below by one screw.

Step 1: Unscrew the cover and connect the cables or connectors inside the interconnection box.

Step 2: After connecting, screw the cover back firmly.

3 | Cautions

Assembly instructions are subject to change without notice.

Surface of the interconnection box can be cleaned only with a non alcohol based cleaners.
