The High Performance Package

This single screen workspace option is ideal for users who prefer a single wide screen monitor alongside their laptop, but still need access to high-powered peripherals. Includes a sleek docking station, ergonomic laptop stand, and a versatile one-cable connection that supports 100W charging to achieve an all encompassing workspace with minimal clutter.

14-in-1 USB4 Dock

VL-D200

The core of the High Performance Package is the Vuelogic D200 docking station – future proof 40Gbps transfer speeds and 100W PD charging means you have the power to perform today and tomorrow.

With support for up to 8K screen resolutions, fully compatible with all legacy USB standards as well as Thunderbolt 3, this docking station will still be relevant for years to come.
