The Large Pro Meeting Room Package

Need to equip an even bigger meeting room? For a meeting space for 8-10 participants we designed our Large Pro Meeting Room as the ultimate union of our Vuelogic product range. Enjoy a 75" TV professionally mounted on the wall with our Vuelogic XL Wall Mount. For seamless connectivity, HDMI and USB connections are available, or wireless engagement through a cutting-edge dongle and streaming codecs. Ensure clear communication with an extension microphone, and effortlessly control the setup with your Windows laptop or MacBook.

All-in-One Videobar and BYOD Switcher

VL-VB300

The VB300 is the flagship model in the Vuelogic series. An effortlessly stylish and usable conference room essential. One single device to fully manage every aspect of your conferencing and collaboration needs. A premium video bar boasting a smart 4K camera, a 4 MEMS mic array, powerful stereo speakers.

Integrated into this is a media switcher with inputs including, USB-C incl. 60W PD, HDMI + USB, and cross platform wireless connectivity.

Split Screen Mode

The integrated switcher in this video bar displays up to two sources at the same time.

Wired & Wireless Sharing

Windows, Airplay, Miracast or with the optional streaming Dongle.

UPGRADE OPTIONS

Upgrade to the latest version with integrated Cat. cable extension.
