The Medium Pro Meeting Room Package

The Medium PRO Meeting Room Package for medium sized meeting rooms enables smooth switching between devices, thanks to the integrated USB and HDMI switcher. Dual screens provide a clear view for presentations, while the under-desk PC ensures powerful performance. The smart video bar VL-VB300 with BYOD function enhances communication with crystal-clear audio and video, making every meeting feel more engaging and interactive. Perfect for productive, distraction-free meetings in any professional setting.

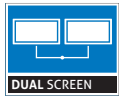

2x1 Dual Screen ProAV KVM Switch

PT-SW-UH21DS-40G

The HDMI 2.1 Dual Screen KVM Switch is ideal for meeting rooms with two screens.

With 40Gbps FRL, it supports 8K at 60Hz, offers fast device detection, zero frame latency and flexible connection options (USB-B, USB-C, HDMI). Control options such as TCP/IP, RS232 and IR ensure an efficient operation.

MST Mode for HDMI & USB-C

Dual-screen modes for individual use or teamwork.

Integrated 100W PD

1x USB-C upstream port with 100W PD for connection to 4x 5Gbps downstream ports.

UPGRADE OPTIONS

The motorised version enables contact-free screen adjustment.
