

SIGNATURE

WORKSPACE

DUAL SCREEN

We recommend
2x 27"
4K Screen

The Signature Package

For installations where style and aesthetics matter, this dual screen workspace option is the perfect choice. Utilising the mediahub2's subtle enclosure design, the user is furnished with a powerful docking solution that doesn't detract from the design aesthetic of the working environment, whilst remaining economical enough for mass deployment. Less is more with this package - dual screens, camera and cables to connect them - everything you need; no more no less.

Designer USB-C Dock

M2-ENC07-9940

mediahub2 is not only beautifully crafted but also intelligently designed.

Fixed devices such as Ethernet, camera, keyboard + mouse dongle, are all subtly hidden at the rear while at the front, a SuperSpeed user port is in easy reach for USB-C headphones or a SSD drive – simple yet elegant.

mediahub2 Design

White, black or grey enclosures perfectly match your interior design choices.

Optional Montage

Mountable on the wall, under a desk or shelf, or clamped securely at the edge of the desk.
